CONTINUOUS BREACH PREVENTION

Stop Breaches and gain threat knowledge with the integrated solution from **CrowdStrike** and **E8 Security**

IMMEDIATE TIME-TO-VALUE:

• Analyze endpoint behavior retrospectively to discover threat activity that's been hiding within your network unchecked, sometimes for long periods.

• Reveal unusual and suspicious endpoint behaviors that normally fly under the radar.

• Get a single source of who's on your network and what they're up to.

JOINT SOLUTION FEATURES:

• Provides expanded visibility and streamlined alerting. Full visibility within your organization, including unprotected devices unexpectedly hopping onto your network, all while prioritizing alerts and contextual awareness.

• Extends advanced detection to your endpoints and beyond. Detect anomalous and suspicious user and network behavior for each entity in your organization.

• Eliminates the long investigative process. Users, devices, and IP addresses are automatically connected and tied to correlated events and alerts, providing full visibility and streamlining your team's investigation.

THE THREAT LANDSCAPE EVOLVES CONSTANTLY:

Stay ahead of adversaries with an advanced, scalable joint solution that enables customers to seamlessly integrate CrowdStrike's Falcon Platform into E8 Security's Fusion Platform to prevent known threats, detect signs of previously unknown threat behavior, and respond quickly before a breach occurs.
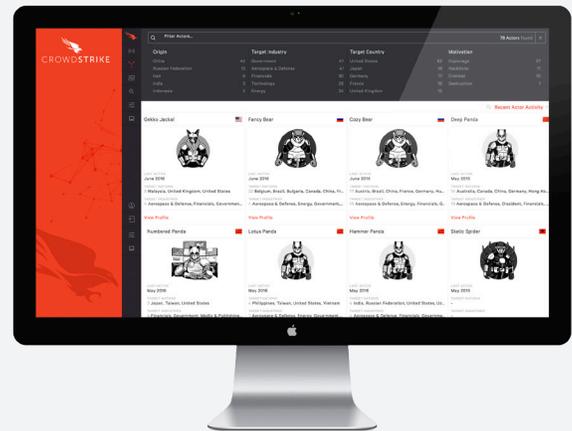

STOP BREACHES - Prevent both malware and malware-free attacks

5-SECOND VISIBILITY - To discover and investigate current and historic endpoint activity

CLOUD POWERED - Lower cost and effective performance with cloud delivery 24/7

COMBAT ADVANCED ATTACKS WITH CROWDSTRIKE AND E8 SECURITY
HARNESSING NEXT-GEN ENDPOINT SECURITY WITH ADVANCED BEHAVIORAL ANALYTICS

Falcon Intelligence feeds actionable insights on the top threat actors, attack vectors, and threat intelligence trends into the Falcon Platform.

Falcon Insight sits on the endpoint alerting on suspicious activity that would be invisible to traditional malware-centric defenses, integrating with E8 Security's Fusion Platform to provide unrivaled network visibility and actionable intelligence.

The Fusion Platform automatically learns and discovers behavioral threat indicators unknown to security analysts so they know where to spend their time, resulting in an accelerated investigative process.

FOCUSED AND PROACTIVE EVENT MANAGEMENT

CHALLENGE:
Cutting through the overwhelming volume of alerts to successfully defend the network.

SOLUTION:
CrowdStrike hunts for and identifies malware and malware-free threats on the endpoint, while seamlessly sending event activity to E8 Security's Fusion Platform, providing you with advanced analytics on user and endpoint activity.

CUSTOMER BENEFIT:
Extend your team's field of vision and tactical awareness without increasing their workload. Shift from a reactive response to proactive security.

ATTRIBUTING AND MITIGATING ADVANCED THREATS

CHALLENGE:
Effectively identifying and attributing threats before they spread.

SOLUTION:
Crowdstrike and E8 Security detect advanced attacks and unknown threat-related behaviors. By identifying the "who" behind every alert, CrowdStrike and E8 Security correlate related events into a single view, enabling you to respond quickly before a breach occurs.

CUSTOMER BENEFIT:
Eliminate the long investigative process and significantly decrease response times.

ABOUT CROWDSTRIKE
CrowdStrike is the leader in cloud-delivered next-generation endpoint protection. CrowdStrike has revolutionized endpoint protection by being the first and only company to unify next-generation antivirus, endpoint detection and response (EDR), and a 24/7 managed hunting service – all delivered via a single lightweight agent.

ABOUT E8 SECURITY
E8 Security is transforming security operations by automating the learning of user and device behaviors to discover malicious activity unknown to security analysts, resulting in improved alert quality and accelerated investigations to make security operations more proactive. E8 Security raises the bar, as the first behavioral analytics vendor to make it easier for security teams to quickly identify unknown threat behaviors across endpoints, users and networks.
